## REPORT OF LIBRARY TRUSTEES

---

Again we submit our annual report of the transactions for the past year, being the thirty-first year since the library was made free, and forty-two years since it was started in a small way at the home of one of the present Trustees, O. P. Wilson. A few more books have been added this year than usual, through the generosity of the voters of the town. It takes more labor each year to keep the books in repair and we hereby express our appreciation for the extra work performed.

## REPORT OF SCHOOL BOARD

---

*To the Constituents of the School District of Dunbarton:*

In submitting the annual report for the school year beginning July 1, 1922, and ending June 30, 1923, we are pleased that we can report the financial conditions of the district to be on the credit rather than the debit side of the account, as it has been heretofore.

This favorable showing was made possible by a vote at the annual meeting of the district March, 1923, in favor of raising the sum of \$216 to meet a prospective deficiency.

The matter of state aid was disappointing; only \$184.79 was received as our allotment.

State aid for the school year 1923-1924 is fully appreciated by the taxpayers of the district. A check for \$1,527.50 has been received and deposited with the district treasurer.

I believe it is within our province to express our opinion as to the employment of teachers who are without experience. We believe that the only safe method for the school board to pursue is to refrain from signing any contract for at least one term of school.

That there be an understanding between the teacher and the school board that if at the end of the first term the teacher has proved to be incompetent, that his or her services should be discontinued.

Experience is a good teacher and applies to all trades and professions and is an important factor in our public schools.

When one has been proved by his or her work and are found to be capable of imparting instruction, maintaining

order, winning the love and respect of the pupils, and making an earnest effort to cultivate good morals among them, it is a credit to all concerned that the service of the teacher shall be retained.

It is not the amount of the salary you pay; it is the results that you get for the salary paid that counts.

Teachers are born; they are not made. All the education available will never develop a successful teacher unless that natural ability so essential to the profession is born with them.

In one of the schools a change of teachers was found to be necessary beyond any doubt. Another teacher was secured to complete the year and proved to be a most fortunate selection. Through her earnest efforts she brought success out of chaos. Her services should have been retained and would have been, had it not been for the adverse ruling by the higher school powers.

#### REPAIRS ON SCHOOL HOUSES.

Some minor repairs will be needed in all the schoolhouses. The house at the Center needs painting outside, and the shed should be shingled as a matter of economy.

Scuffling or boisterous playing among the pupils in the schoolhouse should be strictly prohibited by the teacher. The amount of glass broken and other damage done to the interior by such play is the cause of much of the expense of minor repairs. If pupils must resort to rough play for recreation, there is plenty of room for such outside of the house.

By the present school law the school year ends June 30 and requires the school board on or before July 15 in each year to send to the State Board of Education copies of their annual reports, in answer to the questions proposed by it, relating to the schools in their district. Therefore it is seven months before the taxpayers can read the report in the combined town report.

A statement will be made at the time of the annual meeting by the board in regard to the financial conditions of the district, an account of money raised by taxation and the amount of state aid money received for the support of schools, for year ending June 30, 1924; also what amount of money has been expended and an estimate of the amount that will be required to complete the year.

PHILANDER M. LORD,  
EVA A. TUCKER,

*School Board.*

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

*To the School Board of Dunbarton:*

I herewith submit my second annual report. Notwithstanding the difficult traveling during all of last winter, the school record, in attendance and achievement, for the year ending June 22, 1923, was nearly up to the usual standard. At the opening of the year 16 pupils were enrolled in the eighth grade, an exceptionally large number compared to a total enrollment of 78. During the year 3 of the 16 left school or moved away, and 2 from the seventh grade, by doing extra work, were able to take their places, thus making a class of 15 to graduate.

This year we have no one who will be able to complete the work of the eighth grade. In place of the usual graduation, we hope to have a special program, and an exhibition of school work, which will compare favorably with the historical pageant given last year.

Of the five schools in town only two, the Centre and Burnham Hill, have a sufficient number of pupils to make a well organized school. The other three are too small for economic management and maintenance. In fact, the three schools, as far as numbers go, could be combined and make one standard school. I believe it would be good business policy for the district to give this matter serious consideration, and to try to find some practical plan for moving the buildings, if necessary, and uniting the different local districts.

The enrollments in all the schools thus far for this year is 63. The children of permanent residents of the town in school number 56.

Standard tests show that the Dunbarton children are

keeping up to the standard for their age and grade. The record of those who have entered High School indicates the same thing.

Three of our five teachers are teaching this year for the first time. If the district wishes to retain their services for another year, an increase in salary will be necessary.

The two experienced teachers are doing very good work. I recommend that they be offered, for another year, salaries more nearly commensurate with the quality of service rendered.

The school buildings and immediate surroundings are generally in good condition.

I recommend that during the summer all buildings be thoroughly cleaned and painted where necessary or advisable, and that repairs be made wherever needed. For example, the Centre School shed is very badly in need of new shingles.

The attendance and quality of work done thus far this year have been of a high order. The number who are habitually tardy or absent is very small.

In order that this good work may continue and that normal progress may be maintained, I urge all parents and those who are actively interested to do all possible to make, in the last half, an even better record than was made in the first half year.

Respectfully submitted,

GAIUS H. BARRETT,  
*Superintendent.*
